LET US BUILD YOUR DIGITAL FUTURE ***TOGETHER***

WHO ARE WE?

Since 2015, Kohde has been forging digital-first solutions, founded by a passionate group of coders, creatives, and designers. We build **best-in-class software solutions** with a mission to empower people and bring businesses into the digital future. Proudly South African and fully remote, we collaborate closely with clients across diverse industries, including agriculture, security, banking, financial services, logistics, and telecommunications.

Our customer-centric culture drives us to create and implement bespoke digital solutions and platforms, providing unwavering support and effective change management - all of this to help our customers open up new markets, revenue streams and opportunities.

As a Microsoft Solutions Partner, we've been recognised for our technical expertise, delivery excellence, and ability to build future-ready solutions that scale. This designation is a powerful validation of our commitment to building secure, intelligent and innovative software that helps our clients move forward with confidence.

Kohde specialises in planning, developing, and launching digital futures through business and cost analysis, software development, human-centred design, cloud services, and project management.

LEADING THE BUILD

The driving force behind Kohde is our people, from our directors and heads of department to competency leads, project managers, business analysts, designers, and engineers. With over a decade of software development experience behind us, we collectively shape strategy, guide delivery, and uphold the standards that define our work.

OUR HOLISTIC OFFERING

Whatever your challenge, our multi-talented team crafts the solutions to take your business forward. Our holistic offering is a cohesive sum of parts, worked on collaboratively by our dedicated Kohders:

FULL STACK DEVELOPMENT

Our skilled developers transform strategies and designs into unique working systems. Expect the latest tech stacks in front and back-end development, database design and integration.

STRATEGIC BUSINESS ANALYSIS

In this strategic phase, we understand your objectives, target audience and processes, envision your future and map out the requirements to achieve it

DESIGN AND PROTOTYPING

We craft intuitive experiences (UX) and visually stunning user interfaces (UI). Through rapid prototyping, we validate ideas early on and minimise future risk.

QUALITY ASSURANCE AND TESTING

Quality is everything. We rigorously test at every stage of development to identify and rectify snags early and ensure reliable, high-performing, and secure solutions.

DEPLOYMENT AND DEVOPS

DevOps streamlines deployment and accelerates time to market - two vital aspects of Kohde's deployment process. Our teams work tirelessly to keep deliverables transparent and agile.

SUPPORT AND MAINTENANCE

Your system might be live, but our work is never done. Kohde ensures everything, from technical issues to updates or scaling in order to meet demands, runs smoothly.

METHODOLOGY

Our three pillars of success are designed to turn our clients' ideas into reality by promoting swift feedback, fostering enhanced collaboration and ensuring seamless deployment.

PROTOTYPING

- Develop quick feedback loops.
- Maps product owner, developer and user ideas to a single vision.
- Enforces what you see is what you get.
- Delivers immediate value.

SCRUM

- Quick feedback.
- Improves quality.
- Builds products instead of projects.

DEVOPS

- Drastically reduces deployment time.
- Drastically reduces configuration errors.
- Enables the deployment of more complex systems.
- Removes dependency of developers promoting software to production environment

**_YOUR FUTURE IS CODE.
AND ~~CODE~~ KOHDE IS
YOUR FUTURE.**

KOHDE TIMELINE

- Established Kohde.
 - Developed **Syngenta's** Cultivault & Agrisave platforms.
 - Onboarded **Stanlib** and launched their single-sign-on platform.
-
- Developed a centralised system for **Strategnos**, upgrading their legacy systems to the cloud.
 - Developed a unified commerce & cloud solution for **Axiz**.
 - Optimised **Table Charm's** software and integrated their genealogy & rebate systems.

2015

2016

-

2018

2019

-

2021

2022

-

2025

2026

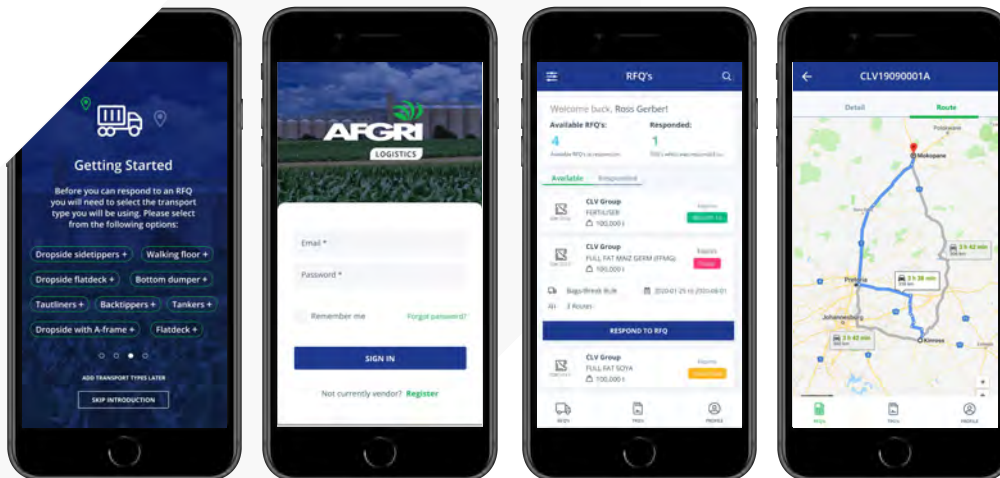

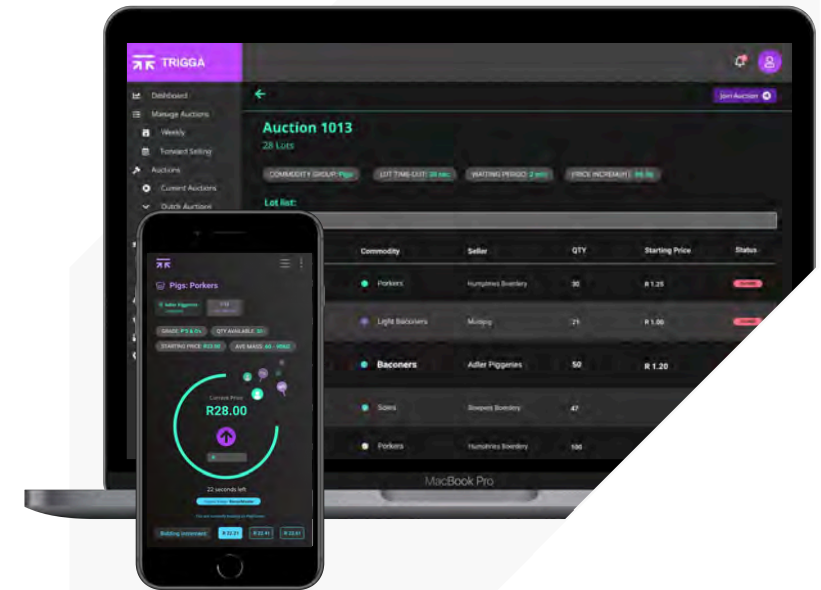

- Launched **Standard Bank's** performance management platform, and implemented Tracess access for both Standard Bank and **Absa** Bank.
 - Onboarded **Afgri**, completed their AWS migration and optimised their logistics workflow.
-
- Launched Table Charm's mobile app platform, empowering over **400 000 business owners**.
 - Optimised **NuCo's** auctioneering platform.
 - Build **Lyra Southern Africa's** executive wellness platform.
 - Assisted **Netcare** with their Cloud Storage migration.
 - Partnered with **Nexus Forensics** to launch an efficient background screening & compliance platform.

OUR WORK

Trigga needed a platform for running online auctions in real time. Together with Trigga, our team developed a real time web based auction platform which allows Trigga to run multiple auctions simultaneously regardless of type or commodity.

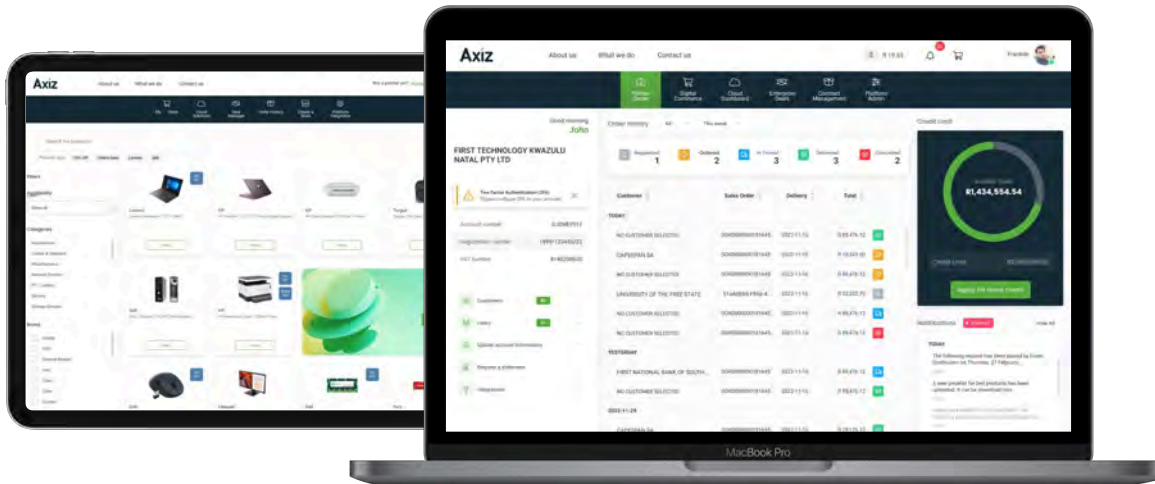

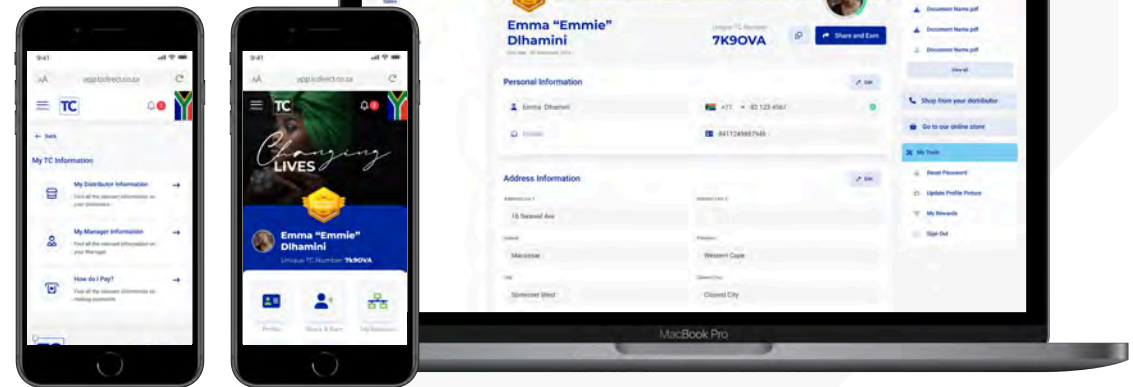

The cost of logistics is an ever-increasing challenge and Afgri Logistics has made it their goal to unlock the maximum value within the logistics process.

Afgri Logistics partnered with Kohde to design and build their cloud logistics platform, bringing customers and transporters together.

TABLE CHARM DIRECT
HOME | HEALTH | STYLE | BEAUTY

TC Direct is a leading direct selling company with one of the largest shopping networks in Africa. Together with the TC team, we are enabling thousands of people to earn an income by providing them with the appropriate tools to grow their business.

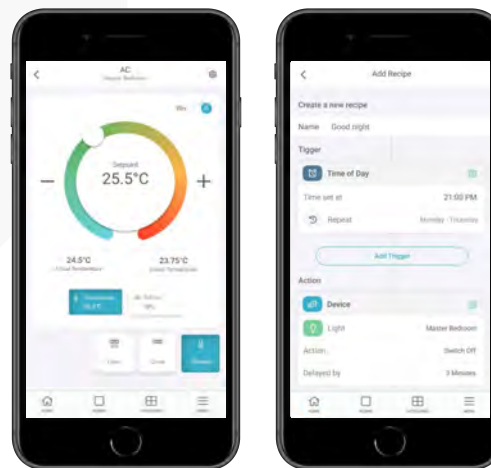

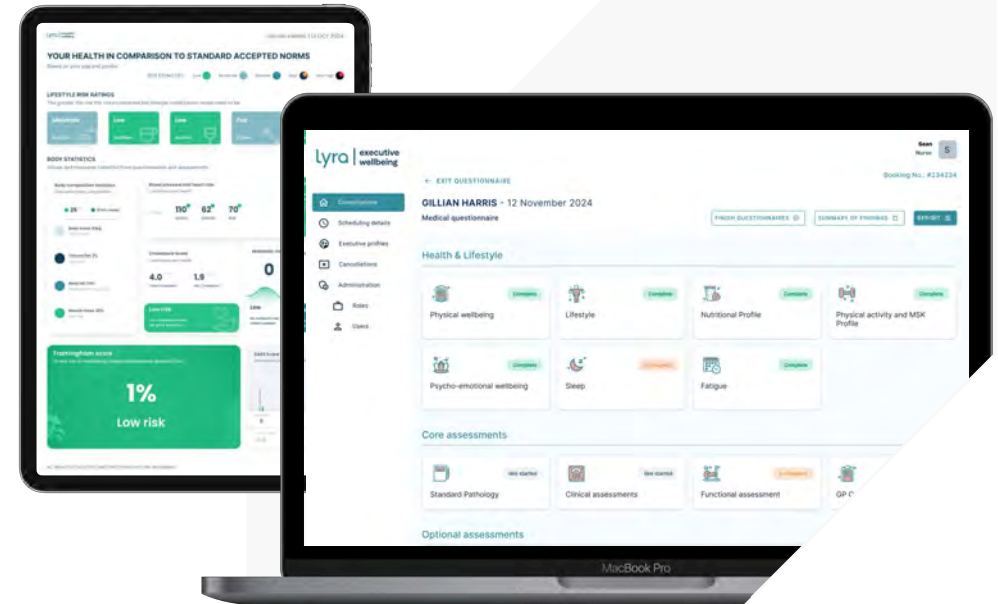

Axiz

Axiz approached us to assist them with implementing their digital strategy. Axiz's key drivers are to transform their traditional brick and mortar distribution business to a software as a service business.

Lyra | executive wellbeing

Lyra Health (formerly ICAS) approached us to develop their Executive Wellness platform. This platform aims to provide preventative health and well-being monitoring insights and awareness to an organisation's executive workforce, helping to mitigate risk and enhance overall well-being.

iZone is an Australian based company that offer smart home solutions which include everything from air conditioning, lighting, security to entertainment. Working with iZone engineers, we completely redesigned their smart home mobile solution from the ground up.

TESTIMONIALS

During the past five years, our company has been working with Kohde on various projects related to digital systems architecture, high-complexity digital systems integration, custom development, platform support and ongoing digital services innovation projects.

Kohde offers high quality professional services and have maintained an excellent working relationship with our company. We have no hesitation in recommending Kohde as a partner for the services they perform.

ANDREW MOODLEY

AXIZ
Chief Digital Officer

Just an email of appreciation for each and every team member we have been dealing with. I am so impressed with the new look and feel of the Grain App, it is seamless and easy to use and will make such a difference. To the teams that worked tirelessly, your extra mile and meticulousness cannot be more appreciated. One heck of a team!

MIRINDA NEL

AFGRI GROUP
IT Applications Manager

We have been partners with Kohde for more than 6 years and prior to this contracted some of the team to STANLIB. Kohde brings a wealth of knowledge and expertise and have assisted STANLIB with many successful projects. Their team has exceptional skills and innovation is always at the forefront of everything they do.

TANYA VAN EEDEN

STANLIB
Head of STANLIB LISP IT

OUR PROMISE

We are a family of passionate problem solvers and creatives who have a single goal, to guide and elevate your business through software solutions that add value to your organisation and your customers.

AGILITY AND TRANSPARENCY

A TESTED AND ROBUST TOOLCHAIN
